

# World Space Week

4<sup>th</sup> – 10<sup>th</sup> October 2020

Satellites Improve Life

Putnoe Primary's  
Home – School Project

# Hello Technicians!

Thank you for taking on the role of being a Science Technician!

Over the year, I will be contacting you, at least once a term to hear what you've been doing in Science and how it could be improved. I will also contact you to question your whole class and other times it will be to help inspire your class to love Science as you do!

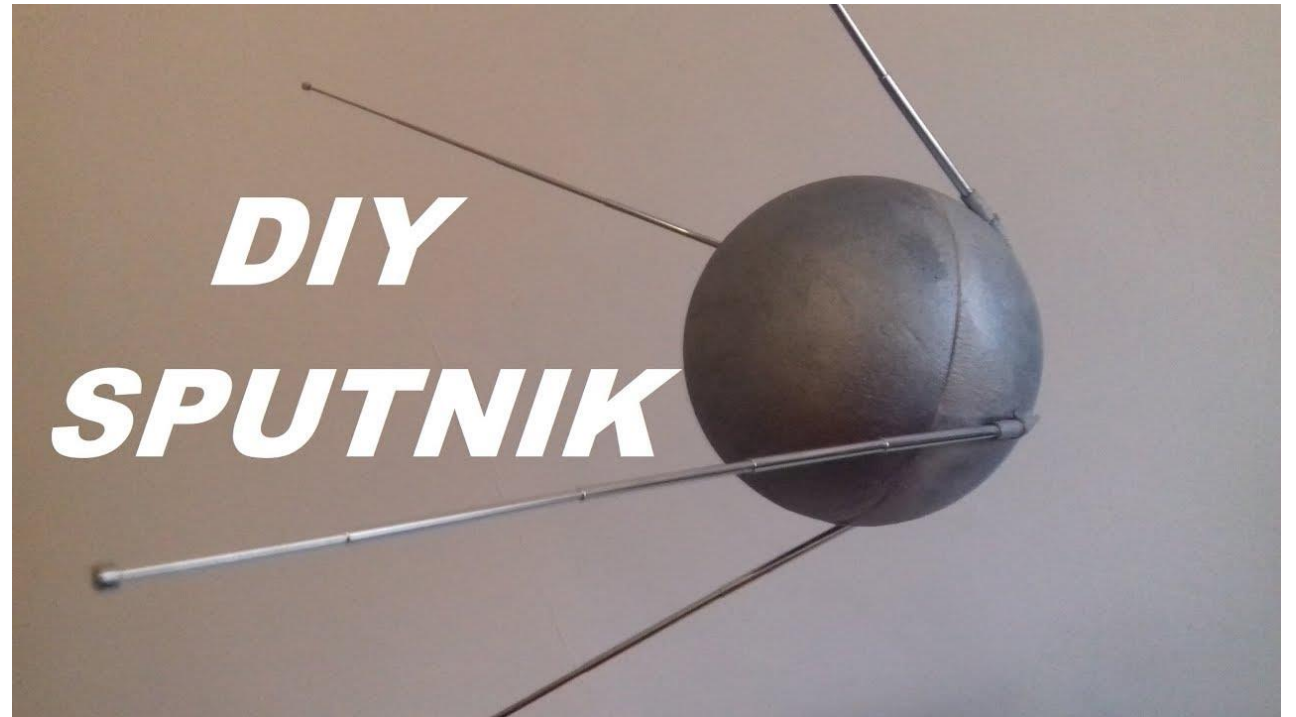

**Your first task...** Please encourage your class to take part in our 'home – school' Space Project. This could include anything linked to Space, although this year the main theme is satellites! A message has been sent to all parents, encouraging them to help their child and then take a photo of their work. Have a look at the next slides for some ideas...

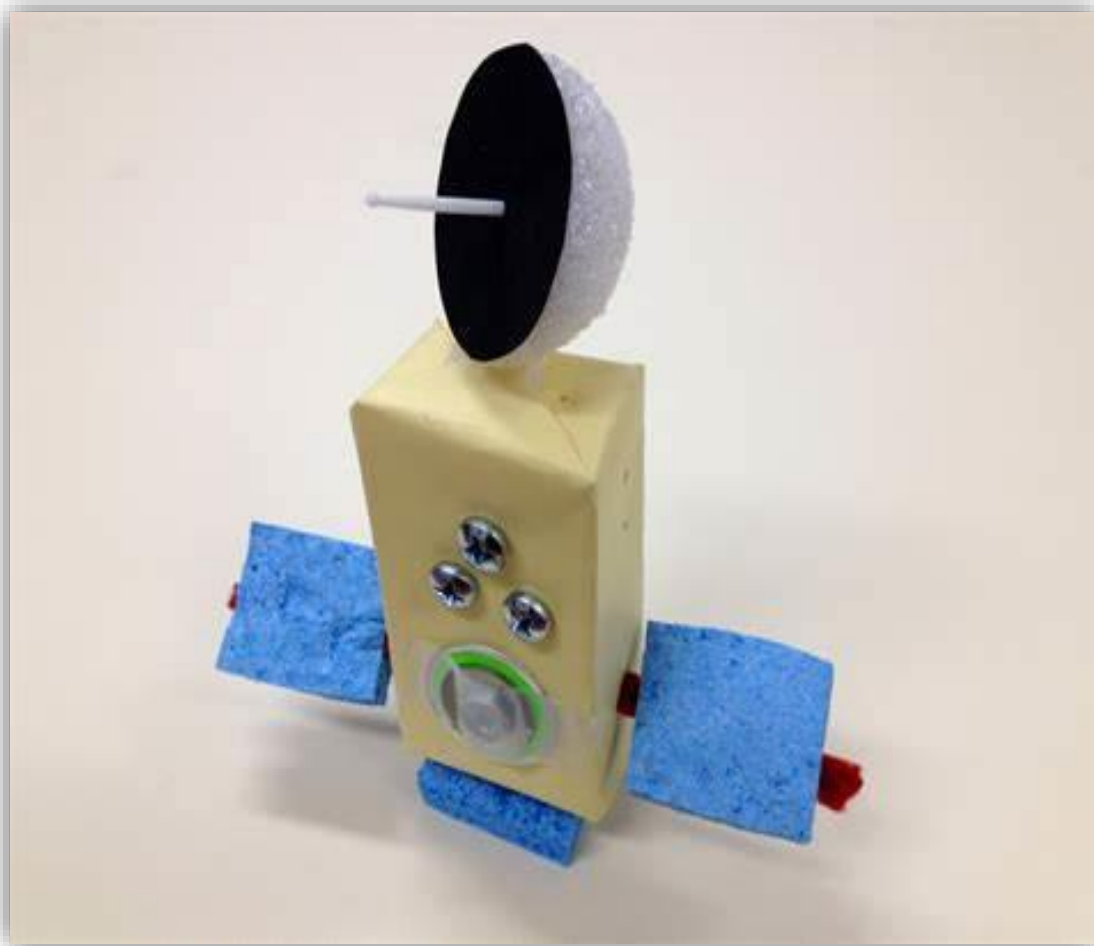

Already  
completed...  
this is Aydin  
Wright's in  
Year 6!
