

Swimming data analysis 2023/2024:

Following a successful swimming schedule for Putnoe's Year 5 cohort for 2023/2024, please find below the data analysis.

- Putnoe finished the Year 5 swimming schedule with 38% of the students assessed being able to swim 25m or more
- Putnoe finished the Year 5 swimming schedule with 100% of the students assessed demonstrating water confidence
- Putnoe finished the Year 5 swimming schedule with 83.10% of the students assessed being able to demonstrate self-rescue
- Putnoe finished the Year 5 swimming schedule with a 14.5% increase of the students assessed now being able to swim 25m or more
- The published data focuses on 25m or more, however many of the students demonstrated progress in swimming ability by increasing their final swimming distance by 5m (or more). By including those students that finished on 25m or more, as well as those students that made improvements in their unaided swimming distance by 5m or more, Putnoe finished the Year 5 swimming schedule with a 71.83% increase in improved swimming distance.

Below are the data tables that lead to the summary detailed above.

Assessment data collected during initial swimming session:

| | Initial assessment data 2023/2024 | | |
|--|-----------------------------------|------------------|--------|
| | Self Rescue | Water Confidence | 25m |
| Total number of students assessed | 85 | 85 | 85 |
| Yes as a percentage to the assessed area | 78.82% | 98.82% | 23.53% |
| No as a percentage to the assessed area | 21.18% | 1.18% | 76.47% |

Assessment data collected during final swimming session (please note a difference in the number of students due to absences, or unable to take part in the final session):

| | Final assessment data 2024 | | |
|--|----------------------------|------------------|--------|
| | Self Rescue | Water Confidence | 25m |
| Total number of students assessed | 71 | 71 | 71 |
| Yes as a percentage to the assessed area | 83.10% | 100.00% | 38.03% |
| No as a percentage to the assessed area | 16.90% | 0.00% | 61.97% |

To summarise, I have included a table detailing the percentage change seen after the two weeks for those students that are a Yes to the assessed areas:

| | Assessment data 2023/2024 comparison | | |
|----------------------|--------------------------------------|------------------|--------|
| | Self Rescue | Water Confidence | 25m |
| % change seen in Yes | 4.28% | 1.18% | 14.50% |
